Company Profile

First Bahrain Real Estate Development Co. K.S.C. (First Bahrain) is an innovative real estate investment company, dedicated to achieving sustainable returns through collaborative relationships. First Bahrain creates enduring value for all stakeholders with a demand-driven investment approach. Operating out of offices in Kuwait and Bahrain, the Company is strategically positioned to execute projects across the GCC.

Established in October 2004 in Kuwait as Baraq Al Khaleej Holding Company, with a paid-up capital of KD 1 million, the corporate name was later changed to First Bahrain Real Estate Development Company, and the paid-up capital was increased. In 2007, First Bahrain opened an office in the Kingdom of Bahrain. Since its inception, the Company has been guided by the principles of Islamic Sharia in all its daily operations and business interests.

The principal shareholders of First Bahrain are leading regional institutions and high-profile real estate investors, including Kamco Invest, Wafra International Investments Co., Action Group Holdings Co., Yaqoob Yusuf Aljouan, and Esterad Investment Co.

First Bahrain owns or holds rights to over 90,000 square meters of strategically located lands in the Kingdom of Bahrain.

The Company's first project, Majaal, is a flexible-use industrial facility designed to support Small-to-Medium sized Enterprises (SMEs). The facility is

located at the Bahrain Investment Wharf (BIW), within Salman Industrial City, near both the new Khalifa bin Salman Port and the Bahrain International Airport. Comprised of seven buildings developed between 2009 and 2014, the complex is home to over 30 businesses representing a range of activities from FMCG distributors to small manufacturers.

The Company initiated a mixed-use development in Janabiya in 2015, completing the commercial phase in 2016. El Mercado Mall, a neighbourhood market with an upscale outdoor experience, has identified a niche market within its catchment area, providing food and beverage, services, and a high-end grocer as the anchor. A residential community featuring 42 stand-alone and semi-detached homes was delivered to initial off-plan buyers in 2018. El Mercado Village is now a thriving community.

El Balcón Mall, the Company's development in the Manama Sea Front, began operations in 2020. Adjacent to El Balcon Mall, the Company

delivered a built-to-suit property for Jarir Bookstore, one of the strongest home-grown brands from the Kingdom of Saudi Arabia. Jarir Bookstore began operations in September 2022.

With the addition of these commercial developments to its diversified portfolio, the Company's multiple revenue streams from industrial, commercial, and residential sectors, are providing dependable cash returns.

Marked by entrepreneurial leadership, commitment and integrity, First Bahrain is actively putting its potential to work for benefit of all its stakeholders.

Our Vision

Our vision is to realise value potential.

Our Values

Our values drive our behaviour. First Bahrain's four core values flow from who we are as people and shape who we are as a Company, enabling us to achieve our vision and mission. These values are also in rank order. If there is any conflict between two values, we choose conduct in line with the higher value.

Our Mission

With entrepreneurial vision and innovation, First Bahrain exists to initiate and orchestrate real estate developments which bring enduring value and sustainable prosperity to both our communities and to our shareholders, through partnerships and investments made in accordance with the principles of Sharia.

Integrity

We are passionate and committed to our principles. Driven by Islamic values, we stand by our corporate social responsibilities. Our expertise and dedication enables us to transcend traditional ideas, and offer clients inspired and meaningful solutions.

Partnership

We continue to build an international network of strategic alliances. These alliances share our vision of maximizing Return of Investment in accordance with the principles of Sharia. In working together with select partners, we develop a strong and secure support-structure and move forward with confidence and strength.

Innovation

We embrace creativity in a constantly changing environment and provide intelligent solutions to capitalise upon these developments. Through dynamic planning, we enhance stakeholder value, increase investor opportunity, and spearhead regional real estate growth to higher levels.

Prosperity

Our understanding and insight into the real estate market is the driving force that enables us to ensure continued prosperity for all our shareholders. We have established an energetic culture that both demands and rewards excellence throughout every business venture.

Report of the Board of Directors

On behalf of the Board of Directors, we hereby deliver to you this Annual Report along with the enclosed Consolidated Financial Statements for the year ended 31 December 2022.

Benefiting from our steady approach to growth and investments, I am pleased to report the Company's return to profitability with a net income for the year of KD 418,817, improving from the prior year loss of KD (586,230). This strong performance was achieved through the growth of net rental income by 17.1% to KD 1,531,956, up from KD 1,307,912 in the prior year. The growth was attributed to leases in our latest commercial projects, Jarir Bookstore and the El Balcón Mall along with improved occupancy in Majaal, our industrial property. The sales of three additional homes contributed to our healthy cash position and elevated the Gross Profit at 31 December 2022 to KD 1,555,485, up 15.5% from the prior year at KD 1,347,278.

There was nominal growth in the cost of operations, commensurate with the increased performance, but the major shift in operational profit was the change in fair value of the investment property portfolio of KD 123,611, supported by the increased occupancy and growing revenues, compared with the reduction of KD (669,518) in the prior year. This reversal in property values saw Operating Profit grow to KD 972,872 over just KD 70,901 in the prior year. Finance expenses reduced by 15.2% to KD (601,462) from KD (708,965) as costs of the COVID-19 deferral were absorbed in the prior year. Despite the significant rise in the global cost of finance through the year,

our current rates, fixed for the year, shielded us from the immediate risk of increased borrowing costs. Within other comprehensive income, there was additional growth in the value of the investment property driven by the appreciation of the Bahraini Dinar relative to the Kuwaiti Dinar, resulting in an additional gain of KD 180,435 (2021: KD 47,014) to achieve total comprehensive income of KD 599,252 versus the loss in the prior year of KD (539,216).

Looking to the balance sheet, the value of the investment property rose to KD 28,292,862 (2021: KD 27,944,892) due to the combination of the fair value and exchange rate increases. The value of villas for sale in inventory, classified as developing properties, reduced by 31.1% to KD 835,680 (2021: KD 1,212,324) with three home sales, leaving six homes in inventory (2021: 9). The liquidity position of the company remained strong with cash and deposits totalling KD 1,538,574 (2021: KD 2,283,539) with a current ratio of 2.4 (2021: 2.7). Within the liabilities, the Islamic finance payable decreased by 4.4% to KD 8,234,149 (2021: KD 8,610,876) with the facility in normal repayment. The reduction of trade payables by 25.6% reflects construction retention payments made during the year as our most recent development cycle is ended and saw the removal of all remaining development risk, resulting in a reduced gearing ratio

of 26% (2021: 27%). This healthy and sustainable leverage is easily supported by rental income cash flows and is well within all bank covenants.

Further on the issue of finance expenses, this has been a difficult year as central banks around the world have raised their borrowing rates to fight rising inflation, particularly food and fuel costs, brought on by several factors including the conflict in Ukraine. Our existing debt, denominated in Bahraini Dinars, is based on the BHIBOR benchmark rate, which increased by 4.25% during the year. If fully absorbed at our next review date, this increase would result in increased borrowing costs in up to KD 350,000 annually. The Company has worked proactively on solutions to mitigate the risks of rising finance expenses, resulting in a newly signed partnership with Mashreq Al Islami Bank. This new Sharia-compliant US Dollar-based deal will allow us to benefit from the average 1.5% spread between the cost of borrowing the US Dollar versus the Bahraini Dinar. This agreement will also extend the tenor to 12 years, thus providing significant reduction to our annual finance cash flows.

Accordingly, the Board of Directors is recommending a cash distribution of 3%, which will include the distribution of all the current retained earnings along with a capital reduction to facilitate the remaining amount. This cash

distribution, our third in a row, is made in demonstration of our commitment to provide a consistent and reliable return to our shareholders.

Looking forward, we are working on a project to convert one of our two remaining dormant plots into an income generating asset. Adjacent to Jarir Bookstore and the El Balcón Mall, the project is expected to be in line with our conservative sweet spot for investments, creating an asset in the range of KD 4 to 5 million, with over 5,000 square meters of leasable area, providing annual gross returns of 8%. We hope to be making announcements about the nature and timing of the project soon.

This new project further supports our goal of converting all our assets into active generators of revenue for the shareholders. In all other areas, the Company will continue exploring means to enhance rental income and realize cash exits where opportunities arise to create sufficient liquidity for further expansion and dividends. Wherever the Company invests, it will make sure we are delivering value and contributing to the local community.

Acknowledgments & Transitions
We extend our best wishes to H.H. Sheikh Nawaf Al-Ahmad Al-Jaber Al-Sabah, as the Amir of the State of Kuwait, and to H.H. Sheikh Meshaal Al-Ahmad Al-Jaber Al-Sabah, the Crown Prince of the State of Kuwait, as they

collectively lead the nation. The State of Kuwait benefits from their wise guidance and selfless dedication to duty, serving as an example to us all.

In like manner, we are grateful for the faithful and well-considered leadership of H.M. the King Hamad bin Isa Al Khalifa, King of the Kingdom of Bahrain, and H.R.H., Salman bin Hamad Al Khalifa, The Crown Prince, Deputy Supreme Commander, and Prime Minister of the Kingdom of Bahrain.

Furthermore, we express appreciation to all governmental ministries, supervisory bodies, and regulatory authorities of both countries, for their constructive support and wise guidance, particularly during this difficult season.

At the board level, we extend our sincere appreciation to Mrs. Hanan Abdulghani for her six years of service as a member of the Board of Directors. In 2023, her seat representing Esterad Investment Co. will be filled by Mr. Ahmed Alabbasi, who will bring a wealth of experience in asset management, real estate, and private equity. We are looking forward to his active contributions to the direction of the Company.

To our management and staff, I honour your faithful and professional service as you continue to adapt and grow, achieving your targets and delivering

results. I am proud of all of you. As we go forward, I commend each of you to renew your commitment to meet the challenges that are before us. Together, we will steward the resources of the company, and create real value to all our stakeholders.

And finally, to our shareholders, we are committed to delivering to you consistent and reliable distributions from the positive cash flow of the company. While we are not able to control the fluctuations of the market, we are building multiple stable and diversified income streams which will help ensure we are able to deliver value and cash dividends to you regularly.

May Almighty Allah grant us all health, security, and sustainable prosperity.

Waleed Ahmed Alkhaja
Chairman

Diversified and Growing Portfolio

COMMERCIAL SECTOR 50.4%

Jarir Bookstore

Jarir Bookstore is one of the strongest brands in the Kingdom of Saudi Arabia. This new big box retail project was custom designed to meet the needs of the client who made their first entry into the Bahrain market after successful expansions into Kuwait and other GCC countries.

INDUSTRIAL SECTOR 33.5%

Majaal Warehousing Development at BIW

Majaal is a leading provider of industrial facilities for Small to Medium-sized Enterprises (SMEs), a market segment which constitutes the engine of growth for every economy. As developer and operator of these flexible multi-purpose facilities, Majaal seeks to facilitate the growth of business and industry in the markets we serve.

The first Majaal property is located at the Bahrain Investment Wharf (BIW) within the Salman Industrial City, providing easy access to Khalifa bin Salman Port and other major transport links in Bahrain. Majaal holds lease rights to land covering over 66,579 square meters in this modern and private industrial development.

The initial three S-Type buildings became operational in February 2010. Each building is sub-dividable into units as small as 250 square meters. Three more S-Type buildings were added to our inventory in June 2013.

The centrepiece of the development at BIW, completed during 2014, is our M-Type building, offering 13,000 square meters of net leasable area sub-divisible into units of minimum space of 1,000 square meters. The building features raised floors with adjustable dock-levellers to cater for direct on and off loading of trucks along with a 12m structure height to facilitate maximum storage density.

Corporate Governance

The Company has put in place a Corporate Governance framework through which it seeks to safeguard shareholders interest, particularly for the minority owners.

The Company has put in place a Corporate Governance framework through which it seeks to safeguard shareholders interest, particularly for the minority owners. The Company seeks to balance entrepreneurship, compliance and industry best practice, while creating value for all stakeholders. This includes, but is not limited to, conducting the policy and affairs of the Company in compliance with regulatory requirements. It also involves having checks and balances in place throughout the organization to ensure that the right things are always done in the right way.

First Bahrain Real Estate Development Company K.S.C. (Closed) is a Kuwaiti closed Shareholding Company which operates as a real estate developer in compliance with the guiding principles of Islamic Sharia. While not publicly listed, the Company is working to fully comply with the Corporate Governance framework as established by the Capital Markets Authority of Kuwait. The Company has only one class of ordinary share and the holders of shares have equal voting rights.

Board of Directors

The Articles of Association of the Company detail the responsibilities of the Chairman and members of the Board of Directors as well as the guidelines of Corporate Governance with respect to the distribution of responsibilities between the Board of Directors and Executive Management. The Board of Directors oversee all the business activities in consultation with the Executive Management team. The Board of Directors discuss and confirm the Company’s business strategy. Additionally, they are responsible for the preparation of financial statements, for risk management, and for Corporate Governance issues. These activities are supplementary to the main role of the Board of Directors which is to ensure adherence and commitment to the Company’s values as set forth in its internal policies and procedures.

When appointed, Board Members are provided with the necessary detailed information to enable them to effectively perform their main role of overseeing the strategic, operational, financial, and compliance affairs as well as corporate Governance controls in the Company. The Corporate Governance framework allows a member of the Board of Directors to seek independent advice when necessary.

With respect to the channels of communication between the Board of Directors and Executive Management, the Board Members can always contact and request information from the Executive Management.

Board of Directors are responsible for ensuring that the systems and controls framework in the Company,

including the Board structure and the organizational structure is appropriate for the Company’s business and its associated risks. The Board of Directors ensure that there are sufficient resources and expertise to identify, understand, and measure the significant risks to which the Company is exposed in its activities. Directors are regularly assessing the systems and controls framework of the Company to ensure that:

- The Company’s operations, individually and collectively are measured, monitored, and controlled by appropriate, effective and prudent risk management systems commensurate with the scope of the Company’s activities;
- The Company’s operations are supported by an appropriate control environment;
- The compliance, risk management and financial reporting functions are adequately resourced, independent of business lines and is run by individuals not involved with the day-to-day running of the various business areas.
- The Management develops, implements and oversees the effectiveness of comprehensive “Know Your Customer” standards in compliance with Anti-Money Laundering (AML) rules enforced by the Real Estate Regulatory Authority (RERA) of the Kingdom of Bahrain. They also perform on-going monitoring of accounts and transactions, in keeping with the requirements of relevant laws, regulations, and best practice.

In their strategy review process, the Board of Directors:

- Review the Company’s business plans and the inherent level of risk in the plans;
- Assess the adequacy of capital to support the business risks of the Company;
- Set performance objectives; and
- Oversee major capital expenditures, divestitures, and acquisitions.

Election and Re-election of Directors:

In their meeting dated 16 July 2020 and in compliance with the terms stipulated in the Article of Association, the Shareholders elected all current members of the Board of Directors for a period of three years.

The Directors are elected by the shareholders at the Annual General Meeting. Candidates for the Board shall be selected by the Remuneration Committee, and recommended to the Board of Directors for approval, in accordance with the qualifications approved by the Board taking into consideration the overall composition and diversity of the Board and areas of expertise new Board members might be able to offer.

The Shareholders will hold new elections for the Board of Directors during the upcoming Annual General Meeting in 2023.

Board Composition & Attendance

The members of the Board of Directors collectively possess an extensive background in finance, real estate development, and broader management experience. The members provide valuable directives in meeting Company objectives. The Board consists of seven

(2021: seven) non-executive Directors comprising including two (2021: two) independent Director(s).

Per the Articles of Association, the Board is required to meet six times during each year. Board members must attend 75% of all meetings within a calendar year. Board members will step down if they are unable to attend four consecutive meetings without an acceptable explanation. The absence of Board members at Board and Committee meetings will be noted in the meeting minutes. Board attendance percentage will then be reported during any General Assembly Meeting when Board members stand for re-election. Voting and attendance proxies for Board meetings are always prohibited.

Board Committees

The Board of Directors have established two subordinate Committees and have delegated specific powers to each committee as follows:

Audit & Risk Management Committee

The primary purpose of the Audit & Risk Management Committee is to assist the Board of Directors in fulfilling its responsibilities by overseeing all audit (external, internal, and Sharia) related processes for the Company and its Subsidiaries and by reviewing the related financial information which will be provided to the shareholders, banks and other stakeholders, as well as the systems of internal controls which Management and the Board of Directors have established. The Committee should meet at least three times a year.

The Committee held three meetings during the fiscal year 2022.

Remuneration & Compensation Committee

The Remuneration & Compensation Committee was established to align with best practice in Corporate Governance. As and when required by the Board, the Committee identifies persons qualified to become members of the Board, to serve as Chief Executive Officer (“CEO”) and or other officers of the Company. The appointment of the external and internal auditors, however, is the responsibility of the Audit & Risk Management Committee. The Committee can make recommendations to the Board including recommendations of candidates for the Board membership to be included by the Board on the agenda for the next AGM meeting, besides reviewing the Company’s remuneration policies for both the Executive Management and for the Board of Directors. Board remuneration shall be subject to approval by the shareholders in the AGM meetings. The Committee should meet at least twice a year.

The Committee held one meeting during the fiscal year 2022.

Management

The Board delegates authority for the day-to-day management of the Company to the Chief Executive Officer, who is supported by a qualified and experienced Executive Management team. Profiles of the Executive Management are included within this Annual Report.

Communication & Disclosure

The Company conducts all communications with its stakeholders in a professional, transparent, and timely manner. Communication channels include this annual report and the Annual General Meeting of the shareholders. Other communication channels include the website, social media, and regular announcements made to the local press. For the most current information regarding the Company, including relevant news along with current and historical financial reports, you are invited to regularly visit the Company website at www.firstbahrain.com.

Risk Management

The Company has developed a risk management framework that provides controls and ongoing management of the major risks inherent in the Company’s core business activities. The Board of Directors has the ultimate authority for setting the risk appetite, risk tolerance and associated parameters and limits, in which the Company operates. The Audit & Risk Management Committee is responsible for establishing, maintaining, and monitoring a risk-based approach to all business activities and management of the Company.

The main risks that the Company is exposed to are credit, liquidity, and market risk. The nature of these risks are further detailed in note 3 to the Consolidated Financial Statements.

Capital Management

The policy of the Board of Directors is to maintain a strong capital base in order to maintain investor, creditor and market confidence, as well as to provide for the future development of the Company. The Board of Directors seeks to maintain a balance between the higher returns and growth which may be possible with higher levels of borrowings and the advantages and security offered by a sound capital position.

Internal Audit

Internal Audit provides an additional line of defence in risk management and internal controls. The role of internal audit is to provide independent and objective assurance that the process for identifying, evaluating and managing significant risks faced by the Company is appropriately and effectively applied.

Internal Audit reports on a semi-annual basis to the Board of Directors through the Audit & Risk Management Committee. The internal auditors report to the Audit & Risk Management Committee the results of periodic audits and obtains commitments from Management to take any remedial action required for any issues raised.

Al Mashora & Al Raya Shari'ah Advisory Board Report

Date: April 2, 2023

Final report of the Sharia Supervisory Committee For the financial period 2022

To the Shareholders of First Bahrain Real Estate Development
Allah's peace, mercy and blessings be upon you

In accordance with the powers delegated to us by the members of the General Assembly of **First Bahrain Real Estate Development** the Company's Articles of Association and the relevant regulatory directives, the Sharia Supervisory Committee submits its final report for the period from 2022 It includes four items as follows:

First: The work of the Sharia Supervisory Committee

The Sharia Supervisory Committee carried out its work, which included examining the investment structures, contract forms, products, policies and procedures either directly or in coordination with the internal Sharia audit department in order to obtain all the information and explanations that it considered necessary to provide sufficient evidence and give reasonable assurance that the company did not violate the provisions of Islamic law in the light of the resolutions of the Sharia Supervisory Committee and the Sharia standards adopted by the Company and the decisions of the relevant regulatory bodies.

Shari'ah Advisory Board:

Head of the Sharia
Supervisory Committee
Dr. Abdullateef H. S. Al-Awadhi

Member of the Sharia
Supervisory Committee
Prof. Mohamed Khaled Mansour

Member of the Sharia
Supervisory Committee
Dr. Mohamed Ali Al-hadia

Second: Decisions of the Sharia Supervisory Committee

The Sharia Supervisory Committee of the Company responded to all the company's inquiries and issued **23 decisions**.

Three: Decisions of the Sharia Supervisory Committee

The Sharia Supervisory Committee did not Approve any policies and procedures during the period.

Four: The final opinion:

In our opinion, after examining all the clarifications and assurances we have obtained, we confirm that:

1. The contracts, operations and transactions concluded by the Company during the period from 2022 were made entirely in accordance with the provisions of the Islamic Sharia.
2. The responsibility to pay zakat falls on the shareholders.

Consolidated Financial Statements

- 1 Independent auditor's report
- 4 Consolidated statement of financial position
- 5 Consolidated statement of comprehensive income
- 6 Consolidated statement of changes in equity
- 7 Consolidated statement of cash flows
- 8 Notes to the consolidated financial statements

Independent Auditor’s Report

To The Shareholders Of First Bahrain Real Estate Development Company K.S.C. (Closed)

Report on the audit of the consolidated financial statements

Our opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of First Bahrain Real Estate Development Company K.S.C. (Closed) (“the Parent Company”) and its subsidiaries (together referred to as “the Group”) as at 31 December 2022, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards.

What we have audited

The Group’s consolidated financial statements comprise:

- the consolidated statement of financial position as at 31 December 2022;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor’s responsibilities for the audit of the consolidated financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code) and the ethical requirements that are relevant to our audit of these consolidated financial statements in the State of Kuwait. We have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Other information

The directors are responsible for the other information. The other information comprises the report of the Board of

Directors but does not include the consolidated financial statements and our auditor’s report thereon, which we obtained prior to the date of this auditor’s report, and the Group’s annual report, which is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, on the other information that we obtained prior to the date of this auditor’s report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Group’s annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards and the Companies Law no. 1 of 2016 and its executive regulations, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing these consolidated financial statements, management is responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group’s financial reporting process.

Auditor’s responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in these consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether these consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other legal and regulatory requirements

Furthermore, in our opinion, proper books of accounts have been kept by the Parent Company and the consolidated financial statements, together with the contents of the report of Board of Directors relating to these consolidated financial statements, are in accordance therewith. We further report that, we obtained all information and explanations that we required for the purpose of our audit and that the consolidated financial statements incorporate all information that is required by the Companies’ Law no. 1 of 2016 and its executive regulations and by the Parent Company’s articles of association; that an inventory was duly carried out and that, to the best of our knowledge and belief, no violations of the Companies’ Law no. 1 of 2016 and its executive regulations nor of the Parent Company’s articles of association have occurred during the year ended 31 December 2022 that might have had a material effect on the business of the Group or on its consolidated financial position.

1. INCORPORATION AND ACTIVITIES

First Bahrain Real Estate Development Company K.S.C. (Closed) (“the Parent Company”) was incorporated as a Kuwait Shareholding Holding Company on 5 October 2004. The Parent Company has commercial registration Number 103837 dated 16 October 2004. The Parent Company is engaged in activities in accordance with Noble Islamic Sharia, which include:

- Trading, management and development of properties inside and outside Kuwait.
- Owning, buying and selling of stocks and bonds of real estate companies inside and outside Kuwait.
- Performing maintenance of properties, including mechanical, electro-mechanical, and air conditioning activities.
- Performing real estate advisory services, feasibility studies and real estate appraisals.
- Managing, operating and leasing hotels, clubs, residential buildings, touristic and health care resorts and providing support services.
- Organizing real estate exhibitions for the Parent Company’s real estate projects.

The registered head office of the Parent Company is P.O. Box 29295 Al-Safat 13153, State of Kuwait.

The Parent Company’s main office is at City Tower, 2nd Floor, Khaled Bin Al Waleed Street, Sharq, Kuwait.

The consolidated financial statements comprise the Parent Company and its directly owned branch and subsidiaries (together referred to as “the Group”). A list of the branch and subsidiaries are as follows:

Name of the company	Country of incorporation	Percentage of ownership		Principal activities
		2022	2021	
First Bahrain Real Estate Development Company (Bahrain branch)	Kingdom of Bahrain	100%	100%	Real estate and investment activities
First Kuwait Al Seef Real Estate Development Company W.L.L.	Kingdom of Bahrain	99.9%	99.9%	Real estate and investment activities
FB Janabiya Residential Development Company W.L.L.	Kingdom of Bahrain	99.8%	99.8%	Real estate and investment activities
Majaal Warehouse Company W.L.L.	Kingdom of Bahrain	99.8%	99.8%	Real estate and investment activities

The Parent Company owns directly and indirectly 100% of its subsidiaries in accordance to share sale agreements.

The Parent Company indirectly owns Seef Hospitality Investment Company W.L.L. in the Kingdom of Bahrain, which is a 100% subsidiary of First Kuwait Al Seef Real Estate Development Company W.L.L.

The total number of employees in the Group was 16 employees as at 31 December 2022 (31 December 2021: 16 employees).

The consolidated financial statements for the year ended 31 December 2022 were authorised for issuance by the Board of Directors on 16 February 2023 and the shareholders have the power to amend these consolidated financial statements at the annual general assembly meeting.

The consolidated financial statements for the year ended 31 December 2021 were authorised for issuance by the Board of Directors on 24 March 2022 and approved by the shareholders in their Annual General Assembly on 9 June 2022.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

2.1 Basis of preparation

(i) Compliance with IFRS

The consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (IFRS) and interpretations issued by the IFRS Interpretations Committee (IFRS IC) applicable to companies reporting under IFRS. The consolidated financial statements comply with IFRS as issued by the International Accounting Standards Board (IASB) and the Companies Law no. 1 of 2016 and its executive regulations.

The preparation of consolidated financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Parent Company’s accounting policies. Changes in assumptions may have a significant impact on the consolidated financial statements in the period the assumptions changed. Management believes that the underlying assumptions are appropriate. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 4.

Going concern

The Group’s management has made an assessment of the group’s ability to continue as a going concern and is satisfied that the Group has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Group’s ability to continue as a going concern. Therefore, the consolidated financial statements continue to be prepared on the going concern basis.

(ii) Historical cost convention

The consolidated financial statements have been prepared on a historical cost basis, as modified for the revaluation of “investment properties”.

2.1.1 Changes in accounting policies and disclosures

(a) New and amended standards adopted by the Group:

A number of new or amended standards became applicable for the current reporting period, and the Group has applied the following standards and amendments for the first time for their annual reporting period commencing 1 January 2022:

- Property, Plant & Equipment: proceeds before intended use – Amendments to IAS 16
- Reference to the conceptual framework – Amendments to IFRS 3
- Onerous contracts – cost of fulfilling a contract, amendments to IAS 37
- Annual improvement to IFRS Standards 2018-2020
- Lessor forgiveness of lease payments did not have a material effect on the group because no material rent concessions have been issued to tenants (note 20)

The amendments listed above did not have any impact on the amounts recognized in prior periods and did not significantly affect the current or future periods. There are no other standards or amendments that are effective and that would have a material impact on the Group in the current or future reporting periods and on foreseeable future transactions.

(b) New standards and interpretations not yet adopted:

Certain new accounting standards and interpretations have been published that are not mandatory for 31 December 2022 reporting periods and have not been early adopted by the Group. These standards are not expected to have a material impact on the Group in the current or future reporting periods and on foreseeable future transactions.

2.2 Consolidation

2.2.1 Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

2.2.2 Changes in ownership interests in subsidiaries without change of control

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of Parent Company.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in the consolidated statement of comprehensive income. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified the consolidated statement of comprehensive income.

2.2.3 Business combination

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the:

- fair values of the assets transferred
- liabilities incurred to the former owners of the acquired business
- equity interests issued by the Group
- fair value of any asset or liability resulting from a contingent consideration arrangement, and
- fair value of any pre-existing equity interest in the subsidiary.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest’s proportionate share of the acquired entity’s net identifiable assets. Acquisition-related costs are expensed as incurred.

The excess of the following items over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired, the difference is recognised directly in the consolidated statement of comprehensive income as a bargain purchase:

- consideration transferred,
- amount of any non-controlling interest in the acquired entity, and
- acquisition-date fair value of any previous equity interest in the acquired entity.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity’s incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in consolidated statement of comprehensive income.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer’s previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in consolidated statement of comprehensive income.

2.3 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified by the Board of Directors.

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

2.4 Foreign currencies

(a) Functional and presentation currency

Items included in the consolidated financial statements are measured in Bahraini Dinars (BD), which is the currency of the primary economic environment in which the Group operates (“the functional currency”). The consolidated financial statements are presented in Kuwaiti Dinars (KD), which is the Parent Company’s presentation currency of the Group.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of comprehensive income.

Foreign exchange gains and losses are presented in the consolidated statement of comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are recognised in the consolidated statement of comprehensive income.

(c) Foreign operations

The results and financial position of all foreign operations (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) Assets and liabilities for each financial position presented are translated at the closing rate at the date of that financial position;
- (ii) Income and expenses for each statement of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- (iii) All resulting exchange differences are recognised in other comprehensive income.

2.5 Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the companies in the consolidated Group, is classified as investment property. Investment property also includes property that is being constructed or developed for future use as investment property.

Investment property that is obtained through a lease is measured initially at the lease liability amount adjusted for any lease payments made at or before the commencement date.

Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs.

After initial recognition, investment property is carried at fair value. Investment property under construction is measured at fair value if the fair value is considered to be reliably determinable. Investment properties under construction for which the fair value cannot be determined reliably, but for which the Group expects that the fair value of the property will be reliably determinable when construction is completed, are measured at cost less impairment until the fair value becomes reliably determinable or construction is completed - whichever is earlier. Fair value is based on active market prices, adjusted, if necessary, for differences in the nature, location or condition of the specific asset. If this information is not available, the Group uses alternative valuation methods, such as recent prices on less active markets or discounted cash flow projections.

Valuations are performed as of the reporting date by professional valuers who hold recognised and relevant professional qualifications and have recent experience in the location and category of the investment property being valued. These valuations form the basis for the carrying amounts in the consolidated statement of financial position. Management applies judgments in deriving investment properties’ fair value.

Investment property that is being redeveloped for continuing use as investment property or for which the market has become less active continues to be measured at fair value.

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

The fair value of investment property reflects, among other things, rental income from current leases and other assumptions market participants would make when pricing the property under current market conditions.

Subsequent expenditure is capitalised to the asset’s carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Changes in fair values are recognised in the consolidated statement of comprehensive income under ‘change in fair value of investment properties’. Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Gains or losses arising on the retirement or disposal of an investment property are recognised in the consolidated statement of comprehensive income. Where the Group disposes of a property at fair value in an arm’s length transaction, the carrying value immediately prior to the sale is adjusted to the transaction price, and the adjustment is recorded in the consolidated statement of comprehensive income.

2.6 Developing properties

Developing properties are stated at the lower of cost and net realisable value. Costs are assigned to developing properties by the method most appropriate to the particular class of inventory, valued on a first-in-first-out basis. Net realisable value represents the estimated selling price for developing properties less all estimated costs of completion and costs necessary to make the sale.

2.7 Furniture and equipment

Furniture and equipment are stated at historical cost less accumulated depreciation and any accumulated impairment losses, if any.

Cost of an item of furniture and equipment includes its purchase price and any direct attributable costs. Cost includes the cost of replacing part of an existing furniture and equipment at the time that cost is incurred if the recognition criteria are met; and excludes the costs of day-to-day servicing of an item of furniture and equipment.

Subsequent costs are included in the asset’s carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the consolidated statement of comprehensive income during the financial period in which they are incurred.

Depreciation is calculated using the straight-line method to allocate their cost less residual values over their estimated useful lives, as follows:

Furniture and office equipment	Computers and electronics	Leasehold improvement	Fixtures
5 years	3 years	3 years	3-10 years

The assets’ residual values and useful lives are reviewed and adjusted if appropriate, at least at each financial year-end. An asset’s carrying amount is written down immediately to its recoverable amount if the asset’s carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amounts and are recognised in the consolidated statement of comprehensive income.

2.8 Impairment of non-financial assets

Assets that are subject to depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset’s carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset’s fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are computed at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Prior impairments of non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

2.9 Financial assets

2.9.1 Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through OCI or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the entity’s business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. The Group’s financial assets carried at amortised cost are as follows:

(a) Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently are measured at amortised cost using the effective interest method, less impairment provision. The Group holds the trade and other receivables with the objective to collect the contractual cash flows.

(b) Cash and cash equivalents

Cash and cash equivalents include cash on hand and bank balances held at call with financial institutions.

(c) Wekala deposits

Wekala deposits are held with reputable financial institutions with original maturity of more than three months which are subject to an insignificant risk of change in value.

2.9.2 Recognition and de-recognition

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

2.9.3 Measurement

At initial recognition, the Group measures a financial asset at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.

Debt instruments

Subsequent measurement of debt instruments depends on the Group’s business model for managing the asset and the cash flow characteristics of the asset. The measurement category into which the Group classifies its debt instruments:

- Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss. Impairment losses are presented as a separate line item in the consolidated statement of comprehensive income. Financial assets at amortised cost comprise of “trade and other receivables”, “wekala deposits”, and “cash and cash equivalents”.

Trade and other receivables
Trade and other receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. They are generally due for settlement within 90 days and therefore are all classified as current. Trade and other receivables are recognised initially at fair value. The Group holds the trade and other receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance.

2.9.4 Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables the Group applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

While bank balances and wekala deposits are also subject to the impairment requirements of IFRS 9, the identified impairment loss was immaterial.

2.10 Financial liabilities

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Group.

All financial liabilities are initially recognised at fair value less directly attributable transaction costs. After initial recognition, financial liabilities are measured at amortised cost using the effective interest method. The Group classifies its financial liabilities as “trade and other payables”, “Islamic finance payables”, and “lease liabilities”.
A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired.

(a) Trade and other payables

Trade and other payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are classified as non-current liabilities.

(b) Islamic finance payables

Islamic finance payables are initially recognised at fair value, net of transaction costs incurred. Islamic finance payables are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in consolidated statement of comprehensive income over the period of the Islamic finance payables using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Islamic finance payables are removed from the consolidated statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in consolidated statement of comprehensive income as other income.

Islamic finance payables are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

2.11 Employees’ end of service benefits

The Group is liable under Labor Laws’ in respective countries, to make payments to the employees for post-employment benefits through defined benefits plan. Such payment is made on a lump sum basis at the end of an employee’s service. This liability is unfunded and is computed as the amount payable as a result of involuntary termination of the Group’s employees on the reporting date. The Group expects this method to produce a reliable approximation of the present value of this obligation.

With respect to its national employees, the Parent Company makes contributions to Public Authority for Social Security calculated as a percentage of the employees’ salaries.

2.12 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

2.13 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are only offset and the net amount reported in the consolidated statement of financial position when there is a legal enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

2.14 Revenue recognition

Rental income

Rental income from operating leases is recognised on a straight-line basis over the lease term. When the Group provides incentives to its tenants, the cost of the incentives is recognised over the lease term, on a straight-line basis, as a reduction of rental income.

Sale of developed units

Revenue on sale of developed units is recognised when control over the unit has been transferred to the customer, which is considered to be at a point in time, when the customer has taken possession of the unit along with compliance with all local regulatory requirements governing the real estate sale contracts. The Group develops and sells residential properties. Revenue is recognised when control over the property has been transferred to the customer. The properties are handed over to customers upon full payment of the purchase price. Notice to customers to make final payment does not arise until connection of government services to the completed properties, including electricity and water. Revenue from sale of residential villas is recognised at a point in time whenever the conditions for the handover are satisfied and the risks and rewards are transferred to the buyer.

The revenue is measured at the transaction price agreed under the contract. In most cases, the consideration is due when government services are connected to the completed properties. While deferred payment terms may be agreed in rare circumstances, the deferral never exceeds twelve months. The transaction price is therefore not adjusted for the effects of a significant financing component.

Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

Revenue from services is recognised in the accounting period in which control of the services are passed to the customer, which is when the service is rendered. For certain service contracts, revenue is recognised based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided because the customer receives and uses the benefits simultaneously.

2.15 Finance costs

Finance costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific Islamic finance payable pending their expenditure on qualifying assets is deducted from the finance costs eligible for capitalisation. All other finance costs are recognised in the consolidated statement of comprehensive income in the period in which they are incurred.

2.16 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the group will comply with all attached conditions.

2.17 Leases

Lease income from operating leases where the Group is a lessor is recognised in the consolidated statement of comprehensive income on a straightline basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income. The respective leased assets are included in the consolidated statement of financial position based on their nature. The Group did not need to make any adjustments to the accounting for assets held as lessor as a result of adopting the new leasing standard.

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

The Group leases its offices and vehicles from different lessors. Rental contract is made for a fixed period of 1 to 3 years but may have extension options. Lease term are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreement do not impose any covenants, but leased assets may not be used as security for borrowing purposes.

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payment that are based on an index or a rate;
- amounts expected to be payable by the lessee under residual value guarantees;
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee’s incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms and conditions.

To determine the incremental borrowing rate, the Group:

- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third party financing, and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

Lease payments are allocated between principal and finance cost. The finance cost is charged to the consolidated statement of comprehensive income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received;
- any initial direct costs; and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset’s useful life and the lease term on a straight-line basis.

2.18 Dividends distribution

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

3. FINANCIAL RISK MANAGEMENT

3.1 Financial risk factors

The Group’s activities may expose it to a variety of financial risks: market risk (including foreign currency risk and interest rate risk), credit risk and liquidity risk. The Group’s overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group’s financial performance. Risk management is carried out by the Group’s finance department as approved by Board of Directors.

(a) Market risk

(i) Foreign currency risk

The Group is exposed to foreign currency risk arising from various currency exposures. Foreign currency risk arises from future commercial transactions, recognised assets and liabilities. Foreign currency risk arises when future commercial transactions or

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

recognised assets and liabilities are denominated in a currency that is not the Group’s functional currency. Positions are monitored on a regular basis to ensure positions are maintained within established limits.

The Group manages its foreign currency risk by regularly assessing current and expected foreign currency rate movements and Group’s foreign currency monetary assets and liabilities.

The Group’s net exposure denominated in foreign currencies is not significant, however, this situation is expected to change in the year ahead.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market interest rates. Interest rate risk arises from the possibility that changes in interest rate will affect future profitability or the fair values of financial instruments. The Group has interest rate risk exposure with its current Islamic finance payables carrying rates that are reviewed annually.

The Group analyses its interest rate exposure on a dynamic basis. Various scenarios are simulated taking into consideration refinancing, renewal of existing positions and alternative financing. Based on these scenarios, the Group calculates the impact on its consolidated statement of comprehensive income and equity of a defined interest rate shift. For each simulation, the same interest rate shift is used for all currencies.

Positions are monitored regularly to ensure positions are maintained within established limits, particularly with the 4.25% increase in the benchmark US interest rates during the year. The Board of Directors took a decision at their meeting on 14 December 2022 to change the Group’s long-term financing to Mashreq Bank to take advantage of lower pricing on US Dollar denominated borrowing. The new financing arrangement will be based on the 1M Term SOFR rate with the first year fixed at 5.8%. This agreement, executed during Q1 2023, manages and reduces interest rate risk in the midst of the current market uncertainty.

(b) Credit risk

Credit risk is the risk one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Group has no significant concentrations of credit risk.

Credit risk arises from bank balances held at banks, wekala deposits and trade and other receivables.

Credit risk is managed on a group basis. The Group structures the levels of credit risk it accepts by placing limits on its exposure to a single counterparty, or groups of counterparties, and to geographical and industry segments. Such risks are subject to a quarterly or more frequent review.

The Group has policies in place to ensure rental contracts are entered into only with counterparties with an appropriate credit history, and monitors the credit quality of receivables on an ongoing basis. Cash balances are held only with financial institutions with a good credit rating. The Group has policies that limit the amount of credit exposure to any financial institution.

The Group’s maximum exposure to credit risk by class of financial asset is as follows:

	2022 KD	2021 KD
Trade and other receivables, excluding prepaid expenses (note 7)	560,019	433,532
Wekala deposits (note 8)	1,104,811	1,712,659
Cash and cash equivalents, excluding cash on hand (note 9)	432,383	570,271
	2,097,213	2,716,462

The Group applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables.

The expected loss rates are based on the payment profiles of tenants over a period of 36 months before 31 December 2022 or 31 December 2021, respectively, and the corresponding historical credit losses experienced within this period. On that basis, the

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

impairment provision as at 31 December 2022 and 31 December 2021 was determined as follows for trade receivables:

31 December 2022	Rental income receivables				Total
	0-30 days	31-60 days	61-90 days	91 days above	
Expected loss rate*	3.79%	9.46%	26.23%	37.93%	
Gross carrying amount – Trade receivables	218,319	129,882	84,923	292,633	725,757
Lifetime expected credit loss allowance	8,285	12,281	22,275	110,983	153,824

31 December 2021	Rental income receivables				Total
	0-30 days	31-60 days	61-90 days	91 days above	
Expected loss rate*	5.19%	7.54%	22.65%	45.30%	
Gross carrying amount – Trade receivables	109,526	118,797	89,694	280,157	598,174
Lifetime expected credit loss allowance	5,687	8,962	20,316	126,721	161,686

* The above expected loss rates are the average rates for the whole subsidiaries of the Group.

The closing impairment provision for trade receivables as at 31 December reconcile to the opening impairment provision as follows:

Trade receivables		
	2022 KD	2021 KD
Opening loss allowance as at 1 January	161,686	172,024
Increase in loss allowance during the year	(7,862)	8,395
Write off during the year	1,264	(18,733)
At 31 December	153,824	161,686

(c) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting commitments associated with financial liabilities, arises because of the possibility (which may often be remote) that the Group could be required to pay its liabilities earlier than expected.

Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. The Group’s objective is to maintain a balance between continuity of funding and flexibility through use of Islamic finance payables. Management monitors rolling forecasts of the Group’s liquidity reserve (comprising the undrawn Islamic finance facilities) and bank balances and cash on the basis of expected cash flows. This is generally carried out at local level in the operating companies of the Group in accordance with practice and limits set by the Group. These limits vary by location to take into account the liquidity of the market in which the entity operates. In addition, the Group’s liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring consolidated statement of financial position liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

The maturity profile is monitored by the Group’s management to ensure adequate liquidity is maintained. A summary table with maturity of financial liabilities is presented below. The amounts disclosed in the below tables are the contractual undiscounted cash flows. Undiscounted cash flows in respect of non-interest bearing balances due within 12 months equal their carrying amounts in the consolidated statement of financial position as the impact of discounting is not significant.

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

The maturity analysis of financial instruments at 31 December is as follows:

31 December 2022	Contractual cash flows				Total KD	Carrying amount KD
	Less than one year KD	From 1 to 2 years KD	From 2 to 3 years KD	More than three years KD		
Liabilities						
Islamic finance payables	1,056,382	1,056,382	1,056,382	8,266,794	11,435,940	8,234,149
Trade and other payables	726,670	-	-	-	726,670	726,670
Total liabilities	1,783,052	1,056,382	1,056,382	8,266,794	12,162,610	8,960,819

31 December 2021	Contractual cash flows				Total KD	Carrying amount
	Less than one year KD	From 1 to 2 years KD	From 2 to 3 years KD	More than three years KD		
Liabilities						
Islamic finance payables	1,157,840	1,048,313	1,048,313	9,251,961	12,506,427	8,610,876
Trade and other payables	1,016,922	-	-	-	1,016,922	1,016,922
Total liabilities	2,174,762	1,048,313	1,048,313	9,251,961	13,523,349	9,627,798

3.2 Financial instruments

The Group’s objectives when managing capital are to safeguard the Group’s ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, increase capital or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated by the Group as Islamic finance payables less cash and cash equivalents. Total capital is calculated as equity, as shown in the consolidated statement of financial position, plus net debt.

	2022 KD	2021 KD
Islamic finance payables	8,234,149	8,610,876
Lease liabilities	11,536	7,015
Less: cash and cash equivalents	(433,763)	(570,880)
Net debt	7,811,922	8,047,011
Total equity	22,279,108	22,304,369
Total capital	30,061,030	30,351,380
Gearing ratio	26%	27%

3.3 Fair value estimation

(a) Assets carried at amortised cost

The fair value of the financial assets measured at amortised cost approximate their carrying amounts as at the reporting date.

(b) Investment properties

Refer to note 5.

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

Valuations of investment properties

The determination at the fair value of investment property requires the use of estimates. These estimates are based on local market conditions existing at the reporting date.

In arriving at their estimates of market values as at 31 December 2022, the valuation consultants have applied their market knowledge and professional judgment to use an income approach and sales comparable approach to measure the value of the property. Therefore, in arriving at their estimates of market values for the undeveloped raw lands as at 31 December 2022 the valuers have not only relied solely on historic transactional comparable. In these circumstances, there is a greater degree of uncertainty than which exists in a more active market in estimating the market values of investment property. Income approach is used to measure the value of the property through a discounted cash flow (DCF) analysis of the net operating income, presuming that the capital investment for the land and buildings is recovered in full over the period of the ground lease. Management applies judgments in deriving investment properties’ fair value.

5. INVESTMENT PROPERTIES

As at 31 December		
	2022 KD	2021 KD
Balance at the beginning of the year	27,944,892	27,813,284
Additions during the year	9,483	740,487
Change in fair value	123,611	(669,518)
Foreign currency translation differences	214,876	60,639
Balance at the end of the year	28,292,862	27,944,892

As at 31 December		
	2022 KD	2021 KD
Investment properties right-of-use assets	9,758,624	9,584,493
Investment properties	18,534,238	18,360,399
Balance at the end of the year	28,292,862	27,944,892

Investment properties represent land, industrial, and commercial properties acquired or constructed through the Group’s subsidiaries in the Kingdom of Bahrain.

Land

Land represents two plots (31 December 2021: two plots) with a combined area of approximately 4,725 square meters (31 December 2021: 4,725 square meters) owned by First Kuwait Al Seef Real Estate Development Company W.L.L. (a subsidiary) with a carrying value amounted to 3,860,904 as at 31 December 2022 (31 December 2021: KD 3,803,394), located at Seef Area in the Kingdom of Bahrain. The two plots are currently held for capital appreciation.

Industrial properties

The properties consist of seven industrial buildings owned by Majaal Warehouse Company W.L.L. (a subsidiary) with a carrying

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

value amounted to KD 9,758,624 as at 31 December 2022 (31 December 2021: KD 9,584,493), built across six industrial-zoned plots located at Bahrain Investment Wharf in the Kingdom of Bahrain and held on a leasehold basis through 21 May 2056 with an option to renew for an additional 25 years.

Commercial properties

The properties consist of buildings held for rental income and capital appreciation along with buildings being constructed for this same purpose which are held by two subsidiaries.

The first property is the El Mercado Mall built on an 8,052 square meter plot owned by FB Janabiya Residential Development Company W.L.L. (“FBJ”) (a subsidiary) with a carrying value at 31 December 2022 amounted to KD 4,062,535 as (31 December 2021: KD 4,015,765).

The second and third properties are held by First Kuwait Al Seef Real Estate Development Company W.L.L. (a subsidiary) and include the El Balcón Mall, a plot of 7,235 square meters adjacent to a 3,352 square meter plot which has been built-to-suit for Jarir Bookstore. The value at 31 December 2022 was KD 10,610,799 (31 December 2021: KD 10,541,240). The Parent Company occupies an office situated on the roof of the building. Management considers the occupied portion to be insignificant as the office is used to manage the group’s operations.

All of the above industrial and commercial investment properties amounting to KD 24,431,958 (31 December 2021: KD 24,141,498) are pledged as securities against Islamic finance payable (note 13).

(i) Amounts recognised in the consolidated statement of comprehensive income for investment properties

For the year ended 31 December	2022 KD	2021 KD
Change in fair value of Investment properties	123,611	(669,518)
Net rental income	1,531,956	1,307,912

(ii) Measuring investment properties at fair value

Investment properties are held for long-term rental yields and are not occupied by the Group, except for the land that is currently held for undetermined future use. The Group has not concluded as to whether the land plots will be held-for-capital appreciation or for development to earn rental income in the future. Investment properties are carried at fair value. Changes in fair values are presented in the consolidated statement of comprehensive income.

(iii) Fair value hierarchy

The fair value of investment properties was determined by external, independent property valuers, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued. The independent valuers provide the fair value of the Group’s investment properties annually.

The fair value of the land, as measured by the independent valuers, is recognised as a separate asset held-for-capital appreciation or for development to earn rental income in the future.

The fair value of industrial and commercial properties, as measured by the independent valuers, is recognised as a separate asset to account for deferred rental income which is recognised due to the straight-line treatment of operating lease income less the costs of any free periods or incentives offered to secure new tenants, spread across the entire lease term.

Accordingly, the total fair value of the properties as measured by the independent valuers equals the investment property asset and deferred rental income.

The fair values of the Group’s investment properties are categorised into level 3 of the fair value hierarchy. During the year, there was no transfers between the investment categories (2021: Nil).

The Group’s policy is to recognise transfers into and out of fair value hierarchy levels as at the date of the event or change in circumstances that caused the transfer.

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

(iv) Valuation techniques used to determine level 3 fair values

The Group obtains independent valuations for its investment properties at least annually. At the end of each reporting period, the Group updates its assessment of the fair value of each property, taking into account the most recent independent valuations. The directors determine a property's value within a range of reasonable fair value estimates. Management applies judgments in deriving investment properties' fair value.

The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the Group consider information from a variety of sources including:

- current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences
- discounted cash flow projections based on reliable estimates of future cash flows
- capitalised income projections based upon a property's estimated net market income, and a capitalisation rate derived from an analysis of market evidence.

A reasonably possible change of 1% in the market price of investment properties will have an effect on change in the net profit for the year amounting to KD 282,929 (2021: KD 279,449).

6. DEVELOPING PROPERTIES

Developing properties represent residential properties owned by FB Janabiya Residential Development Company W.L.L. (FBJ) (a subsidiary). The properties originated on a 14,240 square meter master plot, which the subsidiary subdivided into 42 plots on which it built 42 villas, branded as the El Mercado Village. As of 31 December 2022, 6 villas remained in inventory (31 December 2021: 9).

For the year ended 31 December

	2022 KD	2021 KD
Balance at the beginning of the year	1,212,324	1,879,026
Cost of units sold	(401,563)	(672,351)
Foreign currency translation differences	24,919	5,649
Balance at the end of the year	835,680	1,212,324

7. TRADE AND OTHER RECEIVABLES

As at 31 December

	2022 KD	2021 KD
Accrued rental income	725,757	598,174
Less: write offs during the year	(11,914)	(2,956)
Less: loss allowance (note 3.1b)	(153,824)	(161,686)
	560,019	433,532
Prepaid expenses	47,624	48,480
	607,643	482,012

Reversals in the loss allowance of accrued rental income amounted to 7,862 (2021: loss allowance provided for amounted to KD 8,395).

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

8. WEKALA DEPOSITS

As at 31 December

	2022 KD	2021 KD
Short term wekala deposits	1,104,811	1,712,659

Wekala deposits are placed with Islamic banks in the Kingdom of Bahrain. Wekala deposits carry effective average annual profit rate of 3.70% (2021: 2.65%). Wekala deposits have original maturity of more than 3 months.

9. CASH AND CASH EQUIVALENTS

As at 31 December

	2022 KD	2021 KD
Cash on hand	1,380	609
Bank balances	432,383	570,271
	433,763	570,880

10. SHARE CAPITAL

The authorised, issued and paid share capital as at 31 December 2022 is KD 20,192,586 (2021: KD 21,225,191) consisting of 201,925,860 (2021: 212,251,910 shares) shares of 100 fils each.

The shareholders in the Extraordinary General Assembly meeting held on 9 June 2022, approved to offset accumulated losses amounting to KD 129,433 and KD 408,092 as of 31 December 2021 against statutory reserve and share capital, respectively. The shareholders also approved a capital redemption amounting to KD 624,513 resulting in a further reduction in share capital to KD 20,192,586.

On 16 February 2023, the Board of Directors proposed to distribute 100% of the retained earnings and reserves, totaling KD 418,817 as dividends for the year ended 31 December 2022. In addition, the Board of Directors proposed a capital redemption amounting to KD 186,960 resulting in a further reduction in share capital to KD 20,005,626. All proposals are subject to the approval of the shareholders' general assembly.

11. STATUTORY RESERVE

As required by the Companies Law, its executive regulations and the Parent Company's articles of association, 10% of the profit for the year before provisions for contribution to KFAS, Zakat and board of directors' remuneration is to be transferred to statutory reserve after recovering accumulated losses. The Parent Company may resolve to discontinue such annual transfers when the reserve exceeds 50% of paid up share capital.

Only that part of the reserve in excess of 50% of paid up share capital is freely distributable. Distribution of the balance of the reserve is limited to the amount required to enable the distribution to shareholders of 5% of paid up share capital to be made in years when accumulated profits are not sufficient for the distributions to shareholders of that amount.

During the year, KD 42,699 has been transferred to statutory reserve (2021: Nil).

12. FOREIGN CURRENCY TRANSLATION RESERVE

Foreign currency translation reserve is recognised in other comprehensive income when the results and financial position of all foreign operations that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

- (i) Assets and liabilities for each financial position presented are translated at the closing rate at the date of that financial position;
- (ii) Income and expenses for each statement of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- (iii) All resulting exchange differences are recognised in other comprehensive income.

13. ISLAMIC FINANCE PAYABLES

Islamic finance payables represent various structures arranged through Islamic banks in the Kingdom of Bahrain. The combined average cost of the financing is 7% (2021: 7 %).

Islamic finance payables are secured over investment properties with a carrying amount of KD 24,431,958 (31 December 2021: KD 24,141,498) (note 5).

For the year ended	2022 KD	2021 KD
Opening balance	8,610,876	8,359,733
Proceeds during the year	-	441,951
Repayments	(443,007)	(211,899)
Accrual of interest in the year	32,528	32,280
Foreign currency translation differences	33,752	(11,189)
	8,234,149	8,610,876
Islamic finance payables classified as follows:		
Long-term Islamic finance payables	7,746,609	8,159,146
Short-term Islamic finance payables	487,540	451,730
	8,234,149	8,610,876

The carrying value of Islamic finance payables (current and non-current) approximates their fair value.

14. TRADE AND OTHER PAYABLES

As at 31 December	2022 KD	2021 KD
Trade payables	479,978	486,811
Advance payments from tenants	136,993	416,914
Advance payments from villa sale	-	13,449
Accrued expenses	76,526	79,941
Staff payables	25,004	19,807
Due to KFAS and Zakat	8,169	-
	726,670	1,016,922

The carrying value of trade and other payables approximates their fair value.

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

15. NET RENTAL INCOME

Rental income is generated from properties developed by wholly owned subsidiaries Majaal Warehouse Company W.L.L. (MWC) and FB Janabiya Residential Development Company W.L.L. (FBJ) and First Kuwait Al Seef Real Estate Development Company W.L.L. (FK). MWC operates seven industrial buildings occupied by a diverse mix of small to medium sized enterprises. FBJ is operates a neighbourhood retail centre, branded as El Mercado Janabiya. FK operates a commercial property branded as El Balcón Mall. All rental properties are located within the Kingdom of Bahrain.

For the year ended 31 December	2022 KD	2021 KD
(a) Industrial Properties		
Average occupancy rate	57.9%	71.6%
Total leasable area (square meters)	37,701	37,701
Gross rental income	753,552	898,967
Cost of revenue	(186,609)	(182,242)
Net industrial rental income	566,943	716,725
(b) Commercial Properties (FBJ)		
Average occupancy rate	89.2%	91.5%
Total leasable area (square meters)	4,569	4,569
Gross rental income	365,995	368,133
Cost of revenue	(90,087)	(123,979)
Net commercial rental income (FBJ)	275,908	244,154
(c) Commercial Properties (FK)		
Average occupancy rate	86.8%	44.3%
Total leasable area (square meters)	9,081	9,081
Gross rental income	760,555	415,786
Cost of revenue	(71,450)	(68,753)
Net commercial rental income (FK)	689,105	347,033
Net commercial rental income from commercial properties	965,013	591,187
Total net rental income	1,531,956	1,307,912

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

16. REVENUE FROM CONTRACTS WITH CUSTOMERS

For the year ended 31 December		
	2022 KD	2021 KD
Analysis of revenue by category		
Residential Property Sales:		
Revenue from Sales	425,092	711,717
Cost of revenue from sales	(401,563)	(672,351)
Net revenue from sale of developing properties	23,529	39,366

17. GENERAL AND ADMINISTRATIVE EXPENSES

For the year ended 31 December		
	2022 KD	2021 KD
Staff cost	494,918	421,161
Professional fees	91,644	89,599
Depreciation	40,250	46,688
Write off during the year	11,914	2,956
Occupancy expenses	13,777	13,560
Other expenses	50,326	39,972
	702,829	613,936

18. RELATED PARTY TRANSACTIONS

Related parties represent shareholders that have representation in the Parent Company’s Board of Directors and their close relatives, directors and key management personnel of the Parent Company, and entities controlled, jointly controlled or significantly influenced by such parties. All related party transactions are carried out on terms approved by Parent Company’s management and at an arm’s length term.

The related parties’ transactions included in the consolidated statement of comprehensive income are as follows:

For the year ended 31 December		
Significant transactions included in the consolidated statement of comprehensive income	2022 KD	2021 KD
Key management compensation		
Salaries and other short-term benefits	240,446	192,422
End of service benefits	25,640	11,549
	266,086	203,971

19. SEGMENTS INFORMATION

The Board of Directors is the Group’s chief operating decision maker. Management has determined the operating segments based on the information reviewed by the Board of Directors for the purposes of allocating resources and assessing performance.

Notes to the consolidated financial statements

All amounts are in Kuwaiti Dinars unless otherwise stated

The Group is divided into divisions to manage its various activities. For the purposes of segment reporting, the Group’s management has classified the Group’s services into the following:

- Real estate operations: consisting of trading, developing, leasing and managing real estate and rental of investment properties.
- Non-real estate operations: consisting of investment in various Islamic financial instruments, mainly unquoted funds and wekala.

There are no inter-segment transactions. The following tables present assets, liabilities, income, and expenses information regarding the Group’s operating segments for the years ended 31 December 2022 and 31 December 2021 respectively.

	Real estate activities KD	Non-real estate activities KD	Total KD
31 December 2022			
Allocated income	2,635,327	55,576	2,690,903
Allocated expenses	(2,272,086)	-	(2,272,086)
Segment results	363,241	55,576	418,817
Assets	30,290,387	1,104,811	31,395,198
Liabilities	9,116,090	-	9,146,090
Capital expenditure	9,764	-	9,764

	Real estate activities KD	Non-real estate activities KD	Total KD
31 December 2021			
Allocated income	2,470,852	105,060	2,575,912
Allocated expenses	(3,162,142)	-	(3,162,142)
Segment results	(691,289)	105,059	(586,230)
Assets	30,355,555	1,712,659	32,068,214
Liabilities	9,763,845	-	9,763,845
Capital expenditure	853,388	-	853,388

20. RENT CONCESSIONS

During the year, the Group provided rent concessions to certain tenants on the basis of need and in relation to impact from the COVID-19 crisis in the amount of KD 13,787 (2021: KD 52,348).
